SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Man-  
itoba, Saskatchewan, Alberta, the Yukon Terri-  
tory, the Northwest Territories and British  
Columbia, may be leased for a term of twenty  
years at a rental of \$100 per acre. No  
more than 2,500 acres will be leased to one ap-  
plicant.  
Application for a lease must be made to the  
Agent or Sub-Agent of the district in which the  
lease is desired. The land must be de-  
scribed by sections, or legal subdivisions of  
sections, and in general or specific terms.  
Each application must be accompanied by a  
fee of \$5, which will be refunded if the rights  
applied for are not available but not otherwise.  
The lease will include the coal mining rights  
only, but the lessee may be permitted to pur-  
chase whatever available surface rights may  
be considered necessary for the working of the  
mine at the rate of \$10 an acre.  
For full information application should be  
made to the Secretary of the Department of the  
Interior, Ottawa, or to any Agent or Sub-Agent  
of the Dominion lands.  
W. W. Cory  
Deputy Minister of the Interior.

WHEAT, BEAN, SHORTS & CHOP.  
Phone 92

Blairmore, Alta.

## FLOOD DAMAGE NOT EXTREME

MUCH ANNOYANCE BUT NO GREAT  
LOSS OF PROPERTY.

TROUBLES NOW OVER

Government Replaces Lost Bridge - C. P.  
R. Comes in for heavy share of dif-  
ficulty - Traffic Interfered With for  
Week - Montana's Hard Fight.

With the cessation of the heavy rains  
Tuesday last the situation as regards  
floods has rapidly righted and as far  
as this district is concerned all dam-  
age has been repaired and the flood  
is as good as forgotten. All told, it  
amounts to far less than was feared  
would be the case.

The bridge over Cold Creek was the  
most serious loss and the bridge of  
that does not fall upon the town. The  
village council got into communication  
with the Department of Public  
Works the day after the bridge went  
out. Within forty-eight hours a gov-  
ernment man was on the ground and  
in two days more the bridge had  
been replaced by a temporary struc-  
ture and the government has assured  
the council that a permanent bridge  
will later be put in.

When the flood subsided, it was  
found the bridge on the Little road  
had not suffered at all. The drift-  
wood that had lodged against it was  
removed and the stream returned to  
its old channel. With but slight re-  
pairs to the approaches the bridge  
was soon ready for use. A log jam  
below the bridge was blown out and  
all troubled to residents along the  
stream was removed.

The West Canadian Collieries suf-  
fered the greatest damage in this  
immediate vicinity. It had four  
bridges badly damaged and many  
mud slides covered the track of its  
railroad. It took until Saturday  
evening to get the line open again but  
all repairs have been made and the  
company is operating as usual except  
as to cars which, owing to trouble on  
the C.P.R., are short.

The damage to the Miller barn  
was not great and will be re-  
paired at once.

During the local trouble, the C.P.R.  
escaped with remarkably little dif-  
ficulty but the day following the ceas-  
ation of trouble here, the company  
commenced to get its portion and a  
little more. First the bridge over the  
Old Man at Brocket moved several  
feet, rendering crossing unsafe and  
trains were obliged to transfer. Then  
trouble came at the St. Marys and for  
a week the line was practically tied  
up.

Work on the C. & E. cut-  
off traffic between Macleod and Cal-  
gary and the trouble on this line pre-  
vented the trains from getting through.  
There were no through trains on the  
Crow between Wednesday of last  
week and yesterday and for several  
days no mails from east of Pincher  
Creek. Monday night the first flyer  
got through from the east, coming via  
Calgary and the C. & E. Tuesday  
morning the regular passenger came  
through the same way, bringing the  
first through mail. Conditions have  
now however, become practically nor-  
mal.

Pincher Creek is said to have suf-  
fered the biggest flood in her history.  
The stream there, at ordinary times  
but a mere brook, rose to such pro-  
portions that some houses were sur-  
rounded and a large amount of dam-  
age done. One man who went to the re-  
lief of a family marooned on an island,  
lost his team and wagon and barely  
escaped with his life, being obliged to  
remain out over night in the storm  
without shelter.

While there has been much annoy-  
ance from the high water the damage  
has not been great and the difficulty  
in Canada has been as nothing com-  
pared with what many places in the  
states have experienced. In Montana  
traffic of all kinds has been utterly  
demoralized for two weeks, the most  
serious section of the state being av-  
erent off from telegraphic communica-  
tion. Miles and miles of railroads  
have been washed out, many farmers  
have lost their crops and damage of  
various kinds which will run into  
many hundreds of thousands of dol-  
lars has been done.

## WILL BE BIG INSTITUTION

An announcement made by W. J.  
Budd, vice president of the Rocky  
Mountains Cement company, upon  
his return from Spokane Monday,  
means a deal to Blairmore in partic-  
ular and The Pass in general as it  
insures complete success for the ce-  
ment company.

Mr. Budd stated that Spokane in-  
terests headed by D. C. Cor-  
bin, president of the Spokane-  
International, has taken \$200,000 of  
the company's bonds and that the  
money from the sale will be available  
in a very short time. This means  
that the plant under construction at  
Blairmore will be completed without  
any further delay and that with re-  
asonably good fortune, the works  
should be in operation before the  
year expires.

Mr. Budd stated that the Spokane  
deal disposed of all but \$50,000 of the  
\$400,000 bond issue of the company  
and provides ample funds to com-  
plete the construction of the plant  
and carry on operations until the  
business is on a paying basis. He  
stated that he expected to put on an  
increased force in July and push con-  
struction to completion as rapidly as  
possible. Some of the machinery is  
already on order and the full com-  
plement will be purchased by the  
end of this week.

Another important announcement  
made by Mr. Budd is that the plant  
instead of being equipped for a 600  
barrel a day output will be equipped  
at the outset for 1000 barrels. When  
in operation the works will afford em-  
ployment to upwards of 100 men,  
over half of whom will be skilled  
laborers which means that the pay-  
roll will be handsome and will great-  
ly benefit the business interests of the  
district.

## ARBITRATION BOARD MEETS

The joint arbitration board of the  
Western Coal Operators association  
and District No. 18 U. M. W. A.,  
met at Fernie today. It is expect-  
ed the meeting will be more than  
ordinarily interesting as the Michel  
case is expected to come up. This is  
the recent case in which the men  
struck without complying with the  
terms of their agreement owing to  
the refusal of the Crowns Nest Coal  
company to employ one, Harry Mar-  
chant who applied for work, was book-  
ed and supplied with tools and sub-  
sequently was not allowed to go to  
work. The men struck to enforce  
his employment but were induced to  
return to work. They struck again  
the next day because President Jas.  
Douglas of the Michel local and other  
leaders were refused their places  
because of having instigated the first  
strike. The second difficulty was  
brought by the district officials who  
induced the men to go back to work  
pending a settlement through the ar-  
bitration board. The main contention  
of the leaders of the Michel local  
was that Marchant was a union man  
and that the company was endeavor-  
ing to disrupt the union by refusing  
him work. It has since transpired  
that Marchant was not a union man  
of good standing and did not have  
the transfer card from Lundbreck  
union as was originally claimed. The  
whole matter is to be reviewed by the  
board.

There will be several other matters  
to be considered. Among them is a  
case between the West Canadian Col-  
lieries and its men at Bellevue in-  
volving a price for work in pillars.  
The case is very similar to that of the  
International company at Coleman  
which was dealt with at the last pre-  
vious meeting of the board.  
General Manager Remson of the  
West Canadian company and Super-  
intendent Emerson of the Bellevue  
mine went to Fernie this morning to  
attend the meeting.

All Davies of Coleman who was to  
have sung at the concert Tuesday  
evening was taken suddenly ill and  
was unable to appear.

## BIG EXHIBIT IS ASSURED

ARRANGEMENTS UNDER WAY FOR  
DISPLAY AT DOMINION FAIR.

BOARD OF TRADE BUSY

Will Send Men to Calgary to Meet in  
case of The Pass - All companies As-  
sed to Participate - Preparations to  
Entertain Spokane Visitors.

The Frank Board of Trade at the  
adjourned regular meeting for June  
which was held Friday evening, took  
energetic action relative to two mat-  
ters of large importance to the dis-  
trict. In consequence the Frank  
district is assured of adequate repre-  
sentation at the Dominion fair to be  
held at Calgary June 29th to July 9th  
and there is good prospect that the  
visit of the Spokane Chamber of Com-  
merce will be made a notable event.

Owing to circumstances unavoid-  
able, the committee that had been  
appointed to take charge of arrange-  
ments for the exhibit at Calgary was  
unable to report any progress and as  
the time was drawing so close when  
the exhibit must be ready and as  
there will be no further meetings  
prior to the fair, it was decided to ap-  
point another committee and author-  
ize it to proceed without further re-  
ference to the board. President  
Farmer named C. D. McRae, A. V.  
Lang and Mark Drumm as the com-  
mittee. The committee was empow-  
ered to act on its own judgment in  
arranging for the exhibit and was  
given mandatory instructions to see  
that a creditable display is made.

With regard to the visit from the  
Spokane Chamber of Commerce, the  
secretary read a new item from the  
Spokane Review of Spokane, stat-  
ing that according to the itinerary de-  
cided upon, the excursionists will  
reach Frank at 5 o'clock in the eve-  
ning June 3rd and will remain here  
until 11 o'clock. For the same rea-  
sons that actuated the board relative  
to the fair matter, another commit-  
tee was formed with the same powers and  
instructions. This committee is com-  
posed of S. W. Gebb, T. B. Martin,  
Dr. G. H. Macdonald and R. Steeves.  
Mr. Gebb being constituted a com-  
mittee of one to interview the official-  
of the chamber while in Spokane this  
week relative to arrangements.

The committee are energetically  
at work to carry out the respective  
obligations imposed upon them. The  
fair committee, in accordance with  
the policy of the board has asked all  
the mining companies to participate  
and by joining hands, make a most  
imposing exhibit. Some of the com-  
panies had contemplated making  
separate exhibits on their own ac-  
count but inasmuch as no space can  
be obtained in the main building  
and such exhibits would have to be  
made in tents it is likely they will  
take the advantage of joining in one  
big exhibit in the main building.  
The committee proposes to see that  
each be given an equal opportunity  
of displaying its exhibit. A pam-  
phlet will also be published dealing in  
the same spirit of fairness with each  
company. The board will send a  
man to Calgary to take charge of the  
booth whose duty it will be to supply  
inquirers with accurate information  
relative to any company.

The idea of the board in thus deal-  
ing with the matter is that the great-  
est advantage that can come to the  
district must come from an adequate  
showing of the immensity of the in-  
vested interests of the whole district  
rather than through attempting to  
advance the interests of any one com-  
pany as more attention would thereby  
be attracted and the board figures  
that any benefit that may come to  
any particular part of The Pass will  
bring its proportionate share to all  
other portions. It is along these lines  
that the board hopes to carry out the  
undertaking and if all of these inter-  
ested pull together and make an ex-  
hibit on the scale that would render  
possible, large benefits cannot fail  
to accrue.

The committee to prepare for the  
entertainment of the Spokane visitors  
has taken the initial steps and is now  
waiting to hear from Mr. Gebb before  
completing arrangements.

### UNDER WHICH KING.

The question raised by the opposition at Ottawa is simply this: Is the majority or minority in Parliament to rule?

The opposition does not like a certain bill brought down by the government. It does not pretend that it is unconstitutional, or that it is fraught with injustice so grievous as to justify extreme measures in securing its defeat. These arguments are not advanced. The opposition does not like the bill, therefore it is prepared to obstruct the business of parliament until such time as the government meets its wishes in regard to the proposed measure.

In other words, the minority proposes to control the majority. The power to do so is certainly inherent in an opposition, which by endless discussion can prevent the House from carrying in "supply". But the power has always been exercised with the greatest care, and only under circumstances the most extraordinary. It has been felt that to invoke it on slight occasion would be the negation of parliamentary government and that a very serious responsibility would rest on the parliamentary minority which exercised it.

That responsibility the present opposition has definitely assumed. On a matter of minor importance; on a measure which has been trimmed and pruned by the Prime Minister in a honest effort to meet his views, the opposition has taken its stand, and refused supply until this now innoxious measure is withdrawn. It is a heavy responsibility. The King's government has to be carried on. The majority in the House are ready to let it be carried on, but the minority refuse permission.

The bill on which the fight is taking place is, as it now stands, of minor importance. It is merely a cloak for the design of the opposition to embarrass the government. If it were not this bill it would be some other. The opposition which would dare adopt the last recourse of parliamentary warfare in regard to so insignificant a measure, would adopt it in regard to any bill. If the government conceded the demands of the opposition today it would have no guarantee against being held up to-morrow on some equally insignificant matter.

The question, therefore, is not as to the merits of this particular bill, but as to whether the government or the opposition is to rule. The government represents the majority of the House, duly elected by the people. There is no evidence that the government has lost the confidence of the electorate. On the contrary, the bye-elections have shown that it retains that confidence. It is not at the end of its parliamentary term. It is not jamming through legislation which in a moribund House might with justice be postponed. It is simply seeking to carry on the business of the country.

Moreover, it has not sought to crush any particular bill down the throat of the opposition. It has made no attempt to drag on its opponents. On the contrary the government has made every reasonable and honorable attempt to meet their wishes. Sir Wilfrid has pleaded for a measure acceptable to both parties and fair to both. He has modified the objectionable clause so that all savor of partisanship has been taken from it. The opposition is assuming a very grave responsibility. For the sake of party advantage it is obstructing the country's business, prolonging the work of parliament, and bringing distress to thousands of civil servants and other creditors of the government. Should it, by these tactics, force a dissolution of parliament, it will go to the country condemned in advance, in the minds of well thinking citizens, as composed of men un-

able to appreciate the responsibilities that devolve upon an opposition and therefore unfit to be entrusted with the still more onerous responsibilities of a government.

The citizens of Frank will have to give the liberal government of Alberta credit for being reasonably watchful of the interests of the people. Monday night the flood washed out the traffic bridge over Gold Creek, cutting Frank off from trade with Bellevue, Hllesess, Passburg and the prairie. The village council notified Minister of Public Works Cushing in the hope that the village in its present condition financially, would not have to replace the bridge. There were groaners who said the government would do nothing but within forty-eight hours a government man was here and in exactly two days more or just four days from the time the bridge went out, another was built and open for traffic. Mr. Cushing simply recognized our need and came to our relief. We would like you to point to some other government on earth that would have acted with anything like the same expedition and especially when it was under no obligation whatever to build the bridge.

### SYNOPSIS OF CANADIAN NORTH-WEST

MONTREAL REGULATIONS

Any even numbered section of Dominion lands in Manitoba, Saskatchewan and Alberta, excepting 5 and 10, not reserved, nor to be included in any reserve or in any family or any made over 10 years of age, to the extent of one-quarter section of the 10th, 11th or 12th.

Such lands to be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions enumerated therein under one of the following plans:

(1) If the father (or the mother, if the father is deceased) has been a resident of the Dominion for the last 10 years, the homesteader may acquire a farm in the vicinity of the land and secured for the homesteader by residence upon the said land.

(2) If the homesteader is a Canadian citizen, he may be included by residence upon the said land.

(3) If the settler has his permanent residence on the farm, he may be included by residence upon the said land.

(4) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(5) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(6) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(7) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(8) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(9) If the settler is a Canadian citizen, he may be included by residence upon the said land.

(10) If the settler is a Canadian citizen, he may be included by residence upon the said land.

W. W. COPE,  
Deputy of the Minister of the Interior.

## CROPS IN GREAT CONDITION

From the farming sections reports come that the rains of the past weeks have not only not injured the crops but that they are in most magnificent condition. With very few exceptions, all crops are better and further advanced than they have ever been known at this time of year. The promise is in favor of a wonderful crop indeed.

## DRY FARMING ADDRESSES

Addresses on the principles underlying farming under semi arid conditions, explaining particularly what is known as "Dry Farming", will be given under the auspices of the department of agriculture and the local agricultural societies as follows:

Places:  
June 15th Medicine Hat  
" 16th Cardston  
" 17th Magrath  
" 18th Raymond  
" 19th Lethbridge  
" 20th Pincher Creek  
" 21st Macleod  
" 22nd Claresholm  
" 23rd Nanton  
" 24th High River  
" 25th Gleichen  
" 26th Didsbury  
" 27th  
Speakers: Prof. H. W. Campbell  
Lincoln, Nebraska; Subject: "Scientific Soil Culture and what it means to the Great West."  
Other well known speakers will be present at each meeting and speak on kindred topics.  
Prof. Campbell is the famous dry farming expert of Nebraska and Colorado, whose system of cultivation; land has revolutionized the semi arid districts of the United States.  
Every farmer should make a special effort to hear him.  
Geo. Harcourt,  
Deputy Minister of Agriculture.

## Frank News in Brief

Buy your clothing of A. V. Lang; Alex Goyette, dealer in furniture and wall paper.

C. V. McDonald is down from Calgary taking stock at the former tinny store. It is likely the business may be taken over by a newly organized company in the near future.

Owing to the heavy rains of last week rendering any attempt at racing out of the question, the Lethbridge race meet of the Western Canada Turf association was postponed until next Monday and Tuesday, the 15th and 16th.

Owing to the interruption of railway traffic by the floods last week the speakers who were to have addressed a liberal meeting Monday evening were unable to reach Frank and the meeting had to be postponed. No word has come as yet as to when the meeting will be held.

The Bellevue and Lundbreck baseball teams played at Bellevue yesterday afternoon. It was a slugger match all through. Both pitchers were literally pummeled with the result that the score was unusually large. Bellevue won 21-20 without the necessity of going to bat in the last half of the ninth.

A stick of dynamite burning instead of exploding was the means of starting a fire in the coal at the face in one of the entries of the Bellevue mine Thursday last. Prompt and efficient action in dealing with the emergency resulted in quickly extinguishing the fire and the mine was only closed for the day.

General Manager Gobo spent the last half of the week in Frank and left again Monday for Spokane. Mr. Gobo has a force of men at work getting the little building ready for the installation of the screens which were shipped from St. Paul on the 4th and should arrive any day now. It will require about ten days after their arrival to have the handling plant again ready for operation.

The village council met Saturday to levy the annual assessment for the village and as the members are also the school trustees they killed two birds with one stone and levied the school assessment. The assessment is being more than doubled this year. The council also arranged for the collection of the dog tax. The work was entrusted to Sergeant Hallett of the mounted police who has served notice that any person owning a dog who does not pay promptly will have his dog killed.

License Inspector George Whitaker of Pincher Creek, accompanied by J. A. Whitaker of Fishburn visited Frank Tuesday.

W. Fallow, foreman of government work, did a nice and an exceedingly expeditious job in putting in the Sixth street bridge over Gold Creek last week.

Dr. L. E. Downing, formerly of London, Ont., arrived during the week to take charge of the medical work at Hilestee as company doctor under Dr. Macleod, the contractor.

The trial of Pat Mullen for the murder of an Italian at a dance at Michel last fall, was held at Fernie during the week, resulting in a verdict of manslaughter and the prisoner being sentenced to twenty years in the penitentiary.

F. M. Thompson, dry goods man at the Frank store of the Western Mercantile company, has purchased the business of his employees at Lillo. He assumed charge of the business yesterday. Mr. Thompson is an A. I. business man and will without doubt prosper handsomely in his new undertaking.

The Bellevue football team went to Homer Saturday to play its first game in the league series. Owing to the delay of trains by rainouts, the team did not reach Homer until evening. The game took place so late that the last end of it was played in darkness and in a heavy rain. The players were not in the best of condition after their tedious day and did not put up their usual game. All things conspired to their defeat by a score of 3-0.

The musical given Tuesday evening at School Hall in aid of the Roman Catholic church proved an unbounded success in every particular. The attendance was very large thus insuring a handsome contribution to the church exchequer and the entertainment was of the highest order throughout. To particularize to the different numbers would savor of invidious comparison; suffice it to say they were all most excellent and as a whole, afforded the spectators an evening of unqualified enjoyment. Those who contributed to the program were: Mrs. Kevin, soprano; Mrs. Remou, instrumental; Miss Annie Howard, piano; Mr. Leveson, baritone; R. Green, tenor; Mr. Moodie, baritone; Miss Winnie Howard, violin. The accompanists were: Mrs. Kevin, Mrs. Macleod, Mrs. Remou and Miss Annie Howard.

## HEALTH Without MEDICINE

HEALTH CAN BE SAVED BY THIS NEW METHOD

*Hercules Sanchez*  
Copyright 1917 by Dr. H. Sanchez

Mrs. Anna White, Neapolis, Alta., writes: "Received the Oxydonor and find it a source of great relief, although I have had it hardly a month. The first night I slept and rested better than for weeks and my bowels have moved regularly every morning while I used the Oxydonor during the night."

My general health is greatly improved. For years I have been compelled to take a physic every day and been subject to severe headaches and nervousness, but find them all disappearing and how thankful I am. My children say I look ten years younger, and I was just sixty-nine years old the 5th of May.

## To Our Patrons

and the General Public of The Pass:

Owing to our increasing trade in The Pass we have decided to place an "Ad" in The Frank Paper and let our friends and the general public know from time to time what we have to their advantage.

We claim to have the best Blacksmith and Carpenter Shops West of Winnipeg.

We have between four and five thousand dollars worth of machinery in these shops and everything, even to blowing the fires is run by steam. We have five blacksmiths and two wheelwrights. The combined result is that we are able to turn out work on the very shortest notice and you will find prices right. Trust us with your business and it will receive our careful attention. The next time we will tell you something about our furniture and machinery.
